Our bamboo product range budget friendly & sustainable

We have been serving the Home and Living segment for more than 15 years, and over this period of time, there has been a noticeable shift towards environmental responsibility in all areas of life, including business. In recent years, our portfolio has been shaped with environmental awareness, and sustainable management became one of our main objectives. To further this goal, we have created a range of products made from bamboo - an environmentally friendly material - which includes bathroom furniture, storage cabinets and furnishings for every corner of the home.

See the catalog on the following pages for a detailed overview of our bamboo product range.

Bamboo, the most practical and environmentally friendly material

As well as being produced without harming the environment, bamboo furniture has many other advantages.

- ▶ Durable and waterproof, making it the perfect choice for bathroom furniture
- ▶ Resistant to dimensional changes (expansion/shrinkage)
- ▶ Non-mouldy and resistant to all pests in Europe
- ▶ Furniture made from bamboo is attractive, lightweight and natural.
- ▶ It comes from a particularly rapidly renewable source and can be harvested within 5-6 years (it can replace wood as a raw material)
- ▶ Bamboo is one of the most popular furniture materials in recent years, this way it's easy to sell
